

## Summary Report: Campus Infrastructure and IT Review

The Campus Infrastructure and IT Review meeting provided an extensive overview of current and future needs regarding campus infrastructure and information technology (IT) systems at Alisher Navo'i Tashkent State University of Uzbek Language and Literature. Discussions covered maintenance, renovation, expansion projects for physical infrastructure, and upgrades, enhancements, and cybersecurity measures for IT infrastructure.

Attendees delved into identifying potential risks and gaps in both physical and IT infrastructure, emphasizing proactive measures to address maintenance issues, renovation needs, and cybersecurity threats. Strategies were devised to integrate sustainability principles into infrastructure development and ensure the security and reliability of IT systems.

The meeting highlighted the university's commitment to creating a conducive environment for teaching, learning, and research through coordinated efforts in infrastructure management and IT enhancements.

Moving forward, action plans will be implemented to address the identified needs and continuously monitor and assess the effectiveness of infrastructure improvements and IT upgrades to meet evolving requirements and technological advancements.
