Aren't you going to introduce me ... your friend?

- A) *at* B) *with* C) *to* D) *by*

18. Choose the right expression of the underlined numeral.

Electrical energy costs \$0.12 per kilowatt-hour.

- A) *twelve cents* B) *twelve dollars*
C) *nought one and two cents*
D) *nought point twelve dollar*

Read the text and answer the questions according to it.

There is a phrase in English "They earn telephone numbers" which means someone gets a big salary. A man in New York is asking the city mayor for so much that it is almost impossible to think of a comparison. Andrew Panwool, a 50-year-old banker, is asking for two undecillion dollars. Over 99 percent of people wouldn't hear of the word "undecillion". One undecillion dollars is one followed by 36 zeros. The only people who mainly need this word are astrophysicists and astronomers. Two undecillion dollars is a lot more than all the money in the whole world. Even more than all the wealth created throughout entire history. The newspaper reports that Mr Panwool is asking the city mayor for personal injury. It's because last month a dog bit his finger on a city bus.

19. How many zeros are there in one undecillion dollars?

- A) 36 B) 62 C) 99 D) 72

20. According to the passage, who mostly uses the term "undecillion"?

- A) *mayors* B) *bankers* C) *astrophysicists*
D) *biologists*

21. According to the passage, how big is two undecillion dollars compared to the world's money?

- A) *much less* B) *a bit less* C) *much more*
D) *the same*

22. According to the passage, what is the man asking money for?

- A) *for free riding on a city bus*
B) *for buying newspapers*
C) *for being bitten by a dog*
D) *for his astronomical research*

Read the text and answer the questions according to it.

Carpenters are involved in the construction of many different types of structures such as bridges or large buildings. Some carpenters change employers each time they finish a construction job. The duties of a carpenter differ just about each time they accept employment. In most cases, carpenters work in many different locations hundred miles away each year. Carpenters are always adding to their tools and always learning how to use the new tools, materials, and ways of working with wood. Carpentry is an outdoor profession. Carpenters perform climbing, bending, and heavy work. Often they put themselves at risk of injury working with sharp tools and they work in areas where it is all too easy to fall or slip. Many carpenters will choose to focus their skills in one of two categories. Rough carpenters will focus on building things that need to be simple. This includes framing for houses. Finish carpenters will focus on things that are artistic. For example, they can be furniture builders, cabinet makers or toy makers. Wood carvers are sometimes counted as carpenters.

23. Which of the following may a carpenter do in a normal day of work?
- A) *type and send letters*
 - B) *answer phone calls*
 - C) *package and ship mail*
 - D) *help build a bridge*
24. What is unique about a carpenters job?
- A) *They do the same thing all day and don't have sharp tools.*
 - B) *They always work for the same person throughout their career.*
 - C) *They only work indoor and their job isn't risky at all.*
 - D) *They may do something different every time they receive a construction job.*
25. What skill would be handy to have if you were a carpenter?
- A) *cooking*
 - B) *wood working*
 - C) *sewing*
 - D) *typing*
26. All of the following statements are FALSE, EXCEPT
- A) *Carpenters don't possess any sharp tools*
 - B) *Carpenters always work in the same place*
 - C) *Carpenters don't perform any heavy work*
 - D) *Carpenters often put themselves at risk*

Read the text and answer the questions according to it.

I have just returned to England from a **holiday** in Spain, staying at the Bella Vista Hotel, and I am writing to complain about a number of points.

Firstly, I was informed just before my departure that the flight time for the outward journey had been changed, so that instead of arriving in the morning and being able to enjoy the rest of the day at the resort, I arrived at midnight. Then, contrary to the information I had been sent, there was no representative to meet me on arrival, so I had to take a taxi at a cost of \$25. I was also dissatisfied with the Bella Vista Hotel. The lift was frequently out of order, the food in the coffee shop was awful, and the ‘small extra charge’ for windsurfing and other activities, mentioned in the information sheet, turned out to be extremely high.

I complained to the Cheapotours representative at the time but found her unwilling to do anything to help me. In view of these problems, I feel I have the right to ask for compensation and I think that 25% of the cost of the holiday would be an acceptable sum.

27. One can understand from the passage that ...

- A) *the author came to the hotel in the morning.*
- B) *the author didn't like the meal in the hotel.*
- C) *the author had to pay a quarter of a dollar for a taxi in Spain.*
- D) *Bella Vista is a very expensive English hotel.*

28. All of the following statements are True, Except ...

- A) *The author was disappointed with the service in the hotel.*
- B) *Cheapotours didn't carry out its duties fully.*
- C) *The author doesn't have any intention to get compensation.*
- D) *The lift in the hotel didn't work properly.*

29. One can infer from the passage that ...

- A) *the Cheapotours representative didn't take into consideration the complaints of the author*
- B) *the transfer from the airport to the hotel was well-organized by Cheapotours*
- C) *the Bella Vista Hotel is very expensive and convenient hotel*
- D) *the author wants to get \$25 as compensation for inconvenience*

30. The word “**holiday**” in the passage is closest in meaning to ...

- A) *vacation* B) *work* C) *festival*
- D) *service*
