

Project name: PZ-20170927147 –

A study of Turkish written sources from ancient times to the 13th century

Project leader:

Ph.D., docent Tilavov Abdumurod Kholmurotovich.

E-mail: tilavov@navoiy-uni.uz

Tel: +998946252507

The purpose of the project:

Covers the period from the earliest times in the history of Uzbek literature to the XIII century. The textbooks are relatively old, they are given in accordance with the requirements of the time. The inconsistency of the data to the present day into a single monograph covering all periods created the need. Due to this need, the project was organized in a planned manner. He left it to himself "Study of Turkish written sources from ancient times to the XIII century" monograph on each progressive principle; the oldest written that has been identified and analyzed and researched the lighting function was determined based on the sources. Sources obtained during scientific trips in our country, neighboring republics and abroad. The presentation of scientific and theoretical conclusions based on the research will be published on the basis of the project. The main purpose of the monograph is the main purpose of the monograph. For this purpose, the sources found are foreign scholars' views and opinions of the members of the scientific group are summarized. (Text of 150-200 words).

Brief description of the project:

Turkic-runic stone inscriptions, in particular, are ancient inscriptions of stone inscriptions found in Uzbekistan. The importance of literature, folklore, in general, for the spiritual and enlightenment process is enormous. It should be noted. The project is primarily focused on the Stone inscription found in Uzbekistan. Attention is drawn. Opinions are expressed on the general condition of these stones, their decipherment. In deciphering the Stone inscription, of course, along with the principles of reading, the meanings of the words. Attention is also required. If there are several editions of the inscriptions in different places, it is also necessary to compare publications and find out in what sense the decoders used the words will be. Studies in ancient Turkish written sources from the ancient times to the XIII century. Interesting information about language, culture, worldview that has not been known in science so far is determined. This information is studied in a step-by-step manner, in the form of a holistic monograph consists of publishing. (Text of 150-200 words).

Expected result:

The sources obtained as the object of research are from the point of view of folklore and folklore studies to be studied on the basis of a new approach to a new qualitative stage of literature and folklore obviously. There is also a study of Stone inscription, in particular, Stone inscription found in Uzbekistan. Conducting scientific research is of great importance for the science of philology. 1 monograph on the history of Uzbek literature by the project members (prof.N. Rakhmonov's monograph "Nourished by history" is considered; volume 7 b.t. ; on the subject of the project 118 pages of research have been completed and included in the monograph), more than 50 scientific articles have been published. This the main part of the monograph is based on the research and analysis of Turkish written and oral sources distinguished by. The general content of the goals and objectives set out in the project is "Ancient Study of Turkish Written Sources from the Period

to the 13th Century ” is relevant and has sufficient scientific potential to do so. From the monograph published as a result of the project, not only nationwide, but also foreign scientific institutions, universities as an additional methodological guide in the educational process expected to be used. (Text of 150-200 words)
